Ovation

Ovation Practice Scenarios

Explore presentations, interviews, role-play, difficult conversations, client interactions, and more with responsive AI partners.

Explore the growing scenario library

Choose the type of interaction, then tailor the topic, setting, participant characteristics, and level of challenge. Every scenario is a flexible starting point, not a fixed script. New scenarios and venues are consistently being added.

Practice on

- **Web** — Browser access on computers, tablets, and phones.
- **Desktop** — Mac + Windows
- **VR** — Fully immersive

Ovation

Choose how and where to practice

Choose the mode and setting that fit the moment. Then tailor who takes part and how the interaction unfolds.

Choose a lifelike setting

Ovation's growing venue library recreates the spaces where communication happens, helping learners rehearse with the presence, context, and pressure of an actual room. New venues are consistently being added.
